

ERROR: The application failed to initialize properly (0xc0000135)

Products

- All versions of Bayalink Liberty

Document ID:	KB00004
Last Modified:	2008-07-11
Document Type:	Error

Background

The Bayalink Liberty System Requirements require that the Microsoft .NET Framework 2.0 be installed before using the product.

This error will occur when the Microsoft .NET Framework 2.0 is not installed.

Resolution

The error is resolved by installing the Microsoft .NET Framework 2.0 software on the PC where the Bayalink Liberty is going to be used.

The Microsoft .NET Framework 2.0 can be installed from the Bayalink Liberty key at

<libertydrive>\Install\Microsoft.Net_2.0 directory

Alternatively, it can be downloaded from Microsoft at

<http://www.microsoft.com/downloads/details.aspx?FamilyID=0856EACB-4362-4B0D-8EDD-AAB15C5E04F5&displaylang=en>
