## Bayalink Liberty Key

While the Liberty Viewer is running you can check for and install software updates for Bayalink Liberty by

1. Open Bayalink Liberty Viewer
2. Help => Check for Updates

Follow the dialog boxes for the installation

If the Bayalink Liberty Viewer will not start and you wish to check for software updates perform the following:

1. Navigate to the <Liberty Key>\Program Files\Bayalink\Viewer
2. Double Click on LibertyUpdates.exe command

Follow the dialog boxes for the installation

Version 1.5.1.0 or later:

If you have version 1.5.1 or greater, Bayalink Liberty Monitor also includes a Check for Updates option in the Help menu. Using this the Liberty Monitor option is the same as

1. Open Bayalink Liberty Monitor
2. Help => Check for Updates

---

## Related Information

Future versions of the Bayalink Liberty Application will automate the process of checking for updates. When an new update is discovered, the user will be notified of the availability of a new software update.
